

5th Course in Eye Genetics

Jointly organized by ESGM, ESHG and CeUB

Bertinoro (Italy) • September 24-26, 2017

University Residential Centre of Bertinoro

COURSE DESCRIPTION

This is a 3-day long postgraduate level course aimed at both clinicians and researchers seeking an up-to-date introduction to, as well as an overview of ophthalmic genetics today. The course will cater for an audience including ophthalmologists, clinical and molecular geneticists, and genetic counselors. Topics include genetics of inherited retinal diseases, age-related macular degeneration, myopia, glaucoma, corneal disease, optic neuropathies, ocular developmental disease, and gene therapy. The faculty combines experts from all fields of ophthalmic genetics known for their didactic skills.

Participants are encouraged to present a clinical or genetic case of eye disease and will be coached before presenting. Prizes will be awarded for the three best presentations.

A limited number of **FELLOWSHIPS** will be offered by the ESHG. Following their guidelines, students from economically less favoured countries are strongly encouraged to apply. See list here: https://www.eshg.org/fileadmin/eshg/countries/Collective_Members_Country_List_from_01_01_2017.pdf. Fellowships are not limited to this group of countries.

COURSE DIRECTORS

RANDO ALLIKMETS, ANTONIO CIARDELLA, BART P. LEROY, MARCO SERI

Fellowship applications:

To apply for a ESHG fellowship send your CV, cover letter, and a reference letter to:
rpartisani@ceub.it

Closing date for FELLOWSHIP APPLICATIONS:
July 12, 2017

REGISTRATION FEE:

€ 610,00 - It includes: tuition, course material, coffee breaks, meals, and transportation from Bologna airport to the course venue on September 23 and back on September 27.
