

REGIONE AUTONOMA DE SARDIGNA
REGIONE AUTONOMA DELLA SARDEGNA

SARDEGNA
RICERCHE

8th Sardinian International Summer School

From genomic discoveries to therapeutic targets

September 16-20 2019, Pula (CA) - Italy

Initiative financed and implemented with the support of Sardegna Ricerche and the Autonomous Region of Sardinia

An exciting forum dedicated to the state-of-the-art approaches towards the identification of the genetic bases of multifactorial and monogenic diseases and quantitative methods for studying complex dynamics in biological systems.

Topics will include: Population Genetics, Whole genome and RNA on large-scale sequencing datasets, Single Cell Sequencing, Genetics of Autoimmunity, B cell and T cell Receptors analysis, Genetics of Aging

Faculty: Goncalo Abecasis, USA, Myles Axton, USA, Francesco Cucca, Italy, Antonio Condino-Neto, Brasil, Arthur Gilly, UK, Myriam Gorospe, USA, Eoin McKinney, UK, Stephen Montgomery, USA, John Novembre, USA, Kylie James, UK, Mauro Pala, Italy, Stephen Sawcer, UK, David Schlessinger, USA, Ken Smith, UK, Carlo Sidore, Italy, John Todd, UK.

COURSE WEEK: September 16th – 20th, 2019

REGISTRATION: FREE of charge for all attendees

selected participants will pay for their accommodation and travel expenses.

SELECTION BASED ON: CV, motivational letter, and reference letter

APPLICATIONS DEADLINE: August 10th, 2019

MAXIMUM NUMBER OF PARTICIPANTS: 40

LOCATION: Polaris TechnoPark, Pula, Sardinia (Italy)

COURSE DIRECTORS: Francesco Cucca, Marcella Devoto, Giovanni Romeo
